

FoodE

FROM FOOD LOSS TO FOOD ENTREPRENEURSHIP - YOUTH INITIATIVES FOR SUSTAINABLE DEVELOP

Promoting sustainable futures

As the FoodE project reaches its conclusion, the project partnership is proud to share the journey and impactful results of our efforts to combat food loss and empower youth in sustainable agri-entrepreneurship.

Since December 2022, FoodE has been on a mission to inspire innovation, foster knowledge exchange, and create tools to address food loss challenges, engaging young people, farmers, and stakeholders across Europe.

Co-funded by
the European Union

The FoodE project is co-financed by the ERASMUS+ programme of the European Union and will be implemented from December 2022 to December 2024. This website and the project content reflects the views of the authors, and the European Commission cannot be held responsible for any use which may be made of the information contained therein. Key Achievements

- **FoodE e-Manual:**

The FoodE e-Manual equips youth and trainers with tools to tackle food loss and waste. It covers the food value chain, highlights sustainable practices, and offers actionable solutions like reuse and recycling.

Designed for youth and trainers, it combines real-world examples and EU policies to inspire the next generation to create impactful and sustainable food initiatives.

- **Innovation Days:**

Hosted across partner countries, these events brought together young farmers, entrepreneurs, and experts for Science Cafes, Gamification Days, and Open Living Labs. Participants gained insights into the food loss issue while building affiliations that promote sustainability and entrepreneurship.

• **FoodE Connective Platform:**

Finally, the partnership developed a dynamic platform for collaboration and innovation among Agro-entrepreneurs, FoodE Ambassadors, and Farmers. Users can create tailored accounts to access resources, connect with stakeholders, and grow their networks. Agro-entrepreneurs gain access to a product catalog and supply chain tools; Ambassadors can buy, sell, and promote products within the community; and Farmers can manage inventory, track sales, and reach a wider audience. By registering, users can exchange ideas, build partnerships, and drive solutions to reduce food loss.

The FoodE project's tools and resources are now accessible for free and can be used to empower everyone to join the fight against food loss and waste. If you are a youth organization, trainer, or even an aspiring entrepreneur, the tools and resources offer practical solutions and opportunities to make a difference. Together, we can transform how food is produced so as to ensure a more sustainable future for generations to come. The time to act is now, so be the change that makes every bite count!
